Independent Auditors' Report

Honorable Mayor and Members of
The City Council
City of Selma, Alabama

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Selma, Alabama (the City) as of and for the year ended September 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 4, 2013, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over the financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 3 through 10 and page 46, is not a required part of the basis financial statements but are supplementary information required by accounting principles generally accepted in the United State of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the City's basic financial statements. The combining and individual major and nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual major and nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

FINANCIAL MANAGEMENT DISCUSSION AND ANALYSIS ANNUAL FINANCIAL STATEMENT FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2012

The Management's Discussion and Analysis (MD&A) offers readers of the City of Selma's (the "City") financial statements a narrative overview and analysis of the City's financial activities for the fiscal year ended September 30, 2012. It is our intent that these comments provide all parties interested in the City's financial condition a better understanding of the City's operations and financial position.

The City reports its annual financial statements in a format required by the Governmental Accounting Standards Board.

FINANCIAL HIGHLIGHTS

- As of September 30, 2012, the City's net assets (assets minus liabilities) totaled \$34,603,532, a decrease of \$1,558,449 from the September 30, 2011 figure.
- Total net assets for governmental activities are comprised of the following:
 - (1) Capital assets net of related debt of \$29,501,137, include property and equipment, net of accumulated depreciation, and is reduced for outstanding debt related to the purchase or construction of capital assets.
 - (2) Net assets of \$5,551,238 are restricted by constraints imposed from outside the City such as debt covenants, laws and regulations.
 - (3) Unrestricted net assets had a deficit balance of \$448,843.
- Total net assets for governmental activities decreased by \$1,751,389, thus bringing the total to \$33,981,919 for fiscal year 2012.
- Total net assets for business-type activities increased by \$212,940, thus bringing the total to \$621,613 for fiscal year 2012.
- Fund balances (a measure of current financial resources) in governmental funds decreased by \$1,970,663 to a total of \$11,268,930. Of this amount \$863,616 is nonspendable and is not appropriable for expenditures or is legally segregated for a specific future use. The largest portion of the governmental fund balance is in the amount of \$7,609,488 which is restricted for capital projects, debt service and community development. There is also a committed amount of \$310,675 for economic development and an assigned amount of \$62,998 for miscellaneous projects. The combined totals for nonspendable, restricted and assigned, plus the unassigned amount of \$2,422,153 yields a total combined ending fund balance of \$11,268,930 for fiscal year 2012.

- The general fund unassigned fund balance, as of September 30, 2012, was \$2,645,905 or 16.6% of total general fund expenditures.
- The City's total bond and capital lease debt decreased by \$1,222,724 (4.3%) during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and budgetary comparison, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide our readers with an overview of the City's finances, presenting all funds in a more simplified format. This section is similar to financial reporting used by commercial entities. Government-wide statements are separated into two major categories: 1) governmental activities that are principally supported by taxes and intergovernmental revenues, and 2) business-type activities that are supported by user fees and charges. Governmental activities include administrative functions, streets, garbage, public safety, public works, recreation, community development, and the cemetery funds. The sole business-type activity of the City is the Inert Landfill.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. This statement serves a purpose similar to that of the balance sheet of a private-sector business. Again, this year we have added prior year information to analyze how the City's financial position has changed.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. Because it separates program revenue (revenue generated by specific programs through charges for services, grants, and contributions) from general revenue (revenue provided by taxes and other sources not tied to a particular program), it shows to what extent each program has to rely on taxes for funding. All changes in net assets are reported using the accrual basis of accounting, requiring that revenues be reported when they are earned and expenses are reported when the goods and services are received, regardless of the timing of the cash flow.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for the same functions as those reported under the government-wide statement of net assets and statement of activities. However, unlike the government-wide financial statements, governmental fund financial statements focus on events that produce near-term inflows and outflows of spendable resources as well as on the balances of spendable resources available at the end of the year and is a narrower focus than the government-wide financial statements.

Because the focus of governmental fund financial statements is narrower than that of government-wide financial statements, it is useful to compare information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliation to the governmental activities column in the government-wide statements, in order to facilitate this comparison.

The City maintains budgetary controls over its operating funds. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Budgets for governmental funds are established in accordance with state law, and are adopted on a fund level. A budgetary comparison statement is provided for the general fund to demonstrate compliance with the budget. Budgetary variances for the general fund are discussed in some detail later in this section.

Proprietary Funds – The City maintains only one proprietary fund type, an Enterprise Fund. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Enterprise Fund for the City is the Inert Landfill. Enterprise funds are used to report business-type activities.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support City programs. The City collects various taxes that are remitted to the Selma Board of Education which include ad valorem, sales and use taxes.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements in this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Selma's progress in funding its obligation to provide pension and postemployment benefits to its employees. Required supplementary information can be found beginning on page 44 of this report.

Combining and individual fund statements and schedules can be found beginning on page 46 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The statement of net assets provides an overview of the City's assets, liabilities and net assets. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position.

The City's net assets totaled \$34,603,532 as of September 30, 2012. The following table reflects the condensed government-wide statement of net assets:

	Governmental Activities		Business-type Activities		Total	
	2012	2011	2012	2011	2012	2011
Current and other assets (net of internal balances)	\$ 22,353	\$ 25,424	\$ 79	\$ 85	\$ 22,432	\$ 25,509
Internal balances	254	246	(254)	(246)	-	-
Capital assets	39,706	40,201	916	793	40,622	40,994
Total Assets	62,313	65,871	740	632	63,054	66,503
Current and other liabilities	3,066	3,914	110	111	3,177	4,025
Long-term liabilities	25,265	26,224	9	112	25,274	26,336
Total Liabilities	28,331	30,138	119	223	28,450	30,361
Net assets:						
Invested in capital assets, net of related debt	28,695	28,591	806	586	29,501	29,177
Restricted	5,551	6,448	-	-	5,551	6,448
Unrestricted	(264)	694	(185)	(177)	(449)	517
Total Net Assets	\$ 33,982	\$ 35,733	\$ 622	\$ 409	\$ 34,604	\$ 36,142

The City's total assets were \$63,053,834 as of September 30, 2012. Of this amount, \$40,621,649 is accounted for by capital assets, which includes infrastructure.

Of the remaining City assets, \$3,558,180 is accounted for in cash and cash equivalents, \$1,674,281 in accounts receivable, \$840,000 in notes receivable, \$3,242,458 in restricted cash and cash equivalents, \$2,302,955 in restricted cash held by fiscal agent, and the remainder spread among miscellaneous assets.

At September 30, 2012, the City had outstanding liabilities of \$28,450,302, of which \$27,123,733 was long-term debt. Long-term debt includes bonds and warrants payable and capital lease obligations. Of the total amount outstanding approximately \$1,849,967 was due within one year, with the remainder due at various dates before 2039.

Included in other liabilities in the above table are \$661,430 in accounts payable and other current liabilities and \$263,223 in accrued interest payable.

The largest portion of the City's net assets reflects its investment in capital assets, less any outstanding related debt used to acquire those assets. The City's capital assets are used to provide services to citizens. Consequently, investments in capital assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the City's net assets represents resources that are subject to external restrictions on how they may be used. In the current fiscal year,

Total revenues for the City were \$20,455,264 for the year ended September 30, 2012. Governmental activities provided \$20,306,363 or 99.3%, while \$148,901 of business-type activities revenue was provided by charges for services and interest income. The governmental activities received \$10,122,948, or 49.9% of total revenue, from sales taxes and \$2,732,665 or 13.5% of total revenue, from business licenses and permits.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City of Selma uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

Governmental funds provide information on near-term inflows, outflows, and balances of expendable resources. Governmental fund types include General, Debt Service, Capital Projects, and Special Revenue Funds.

Governmental funds reported total fund balances of \$11,268,930, a decrease of \$1,970,663 from the September 30, 2011 figure.

General Fund - At September 30, 2012, total fund balance was \$3,509,521, a decrease of \$305,517 from the previous year. This decrease was due partly to a transfer from the General Fund to the Proprietary Fund in the amount of \$455,250. Total revenue for the General Fund increased by \$123,465 or 0.7% in 2012 compared to the previous year. This was due to a decrease in sales tax which was offset by an increase in intergovernmental revenue and red light fines. Total expenditures for the General Fund decreased by \$189,672 or 1.2% in 2012 compared to the previous year. This was due to an overall decrease in spending by the City.

2009 Capital Project Bond - At September 30, 2012, total fund balance was \$2,058,250, a decrease of \$758,991 from the previous year. This decrease was due to the spending of resources obtained through the issuance of debt in prior years on capital acquisitions and construction in the current period.

Proprietary Fund

The fund statements for the proprietary fund look much like the business-type activities in the government-wide statements. Proprietary fund financial information is measured with the same principles used by commercial enterprises, so this information does not change from the fund statements to the government-wide statements.

Inert Landfill - At September 30, 2012, total net assets was \$621,613, an increase of \$212,940 from the previous year. This increase was due partly to a transfer from the General Fund to pay for the construction of additional landfill cells.

General Fund Budgetary Highlights

Total general fund revenues were \$16,873,433 which was a decrease of \$468,692 over final budgeted revenues. Revenues were budgeted based on the anticipated upswing in the economy which did not materialize. As a result, tax revenue was \$548,443 or 4.22% under the budgeted amount. This was due mainly to the following:

- Sales and use taxes were \$242,052 less than the budgeted amount.
- Ad valorem taxes were \$165,301 less than the budgeted amount.
- Gasoline taxes were \$66,009 less than the budgeted amount.

Capital Asset and Debt Administration

The City's investment in capital assets for governmental and business-type activities as of September 30, 2012, was \$40,621,649 (net of accumulated depreciation). Capital asset investments include land, construction in progress, buildings, building improvements, infrastructure, machinery and equipment, net of depreciation. New additions to capital assets included the following:

- Business/Finance software upgrade
- Renovations to 19 Washington Street
- Air conditioning systems at both City Hall and the Old Depot
- Movie theater equipment
- Completion of the Utility Relocation Project on Water Avenue

At the end of the fiscal year the City had secured and bonded debt outstanding of \$25,958,113. Of this amount \$25,845,000 comprises debt backed by the full faith and credit of the City and \$113,113 in long-term leases. The City's total bond and capital lease debt decreased by \$1,585,635 (5.8%) during the current fiscal year.

THE OUTLOOK FOR NEXT YEAR

The historic City of Selma is continuing to see improvements to its downtown area. In the continuation of our comprehensive plans, the City has received several transportation enhancement grants that will allow the City to revitalize several major streets.

Several investments have been made throughout the City with the anticipation of increasing tourism, economic development and population growth which will affect a positive growth in the City's revenue.

The primary focus of the City is reflective in the City's Comprehensive Master Plan which includes:

- Selma Riverfront Development – The Riverfront Amphitheater, Water Feature, Police Substation, Multi-purpose Room and other amenities are scheduled for completion in 2013.
- City Marina – The work has been completed including the opening of a full service restaurant. Plans to offer fueling services at the docks are being discussed.
- Renovation of Various Public Buildings – The City will continue to renovate and upgrade various public buildings.

- Downtown Redevelopment – The City continues to work in public/private partnerships to assist with the rehabilitation and redevelopment of the downtown district.
- Selma Interpretive Center – The City continues to seek funding for the complete build-out of the facility and parking.
- Code Enforcement – The City has increased the strength of the Code Enforcement Department by adding additional resources. Increase in the number of citations issued is evidence of the department's growing strengths.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for anyone with interest in the economic well being of the City. Questions concerning any of the information provided in this report or request for additional information should be addressed to The Finance Department, 222 Broad Street, Selma, Alabama, 36701.

**RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET ASSETS
SEPTEMBER 30, 2012**

Differences in amounts reported for governmental activities in the Statement of Net Assets.

Total fund balances - governmental funds		\$ 11,268,930
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.		39,706,026
The proceeds of the pension obligation warrants were used to pre-pay the City's unfunded Employee's Retirement System of Alabama (ERS) accrued actuarial liability and is reported as a net pension asset in the Statement of Net Assets.		9,590,650
Deferred debt expenses are allocated over their estimated useful lives and are shown net of amortization expense as an asset on the Statement of Net Assets.		692,980
Long-term liabilities, including bonds payable, and accrued interest are not due and payable in the current period and, therefore, are not reported in the governmental funds. Balances at September 30, 2012 were:		
Bonds, leases and notes payable	\$ (25,848,824)	
Unamortized net premiums	(60,979)	
Unamortized net discounts	142,351	
Accrued interest	(262,223)	
Compensated absences	(230,397)	
Postemployment benefits other than pensions	<u>(1,016,595)</u>	
Total long-term liabilities		<u>(27,276,667)</u>
Net assets of governmental activities		<u>\$ 33,981,919</u>

See accompanying notes to financial statements.

CITY OF SELMA, ALABAMA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The City of Selma (the City) was incorporated under the laws of the State of Alabama in 1837 and operates under an elected Mayor-Council form of government as required by State of Alabama Legislative Act No. 73-618 approved August 28, 1973. The City operates under a Mayor-Council form of government and provides the following services: public safety (police and fire), highways and streets, sanitation, health and social services, public improvements, planning and zoning, recreation and general administrative services. The City provides library, public housing and education services through separate operating boards recognized as legal entities unto themselves and, accordingly, those boards' financial statements and information are not included herein.

Government-Wide and Fund Financial Statements

Government-Wide Statements: The statement of net assets and the statement of activities display information about the primary government. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the City's funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund include administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

CITY OF SELMA, ALABAMA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements (Continued)

The City reports the following major governmental funds:

General Fund – This is the City’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Other Funds Account – This fund accounts for special revenue items, largely federal and state grant receipts.

Bond Fund – This fund accounts for the resources accumulated and payments made for principal and interest on the 2009-A and 2009-B General Obligation Bonds.

2009 Capital Project Bond – This fund accounts for the acquisition of assets and construction of projects that are funded by the 2009 General Obligation Bonds.

The City reports the following major enterprise fund:

Inert Landfill – This fund accounts for the operations, maintenance, and development of the City-owned landfill.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period, considered to be sixty days for property taxes and ninety days for all other revenue. Expenditures generally are recorded when a liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital lease are reported as other financing sources.

All governmental and business-type activities and enterprise funds of the City follow Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with Governmental Accounting Standards Board (GASB) pronouncements.

CITY OF SELMA, ALABAMA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Management Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could vary from estimates used.

Assets, Liabilities, and Equity

Cash and Cash Equivalents

Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All receivables are shown net of any applicable allowance for uncollectibles.

City property taxes are levied by the County Commission at its first regular meeting in February of each year based on the property on record as of the preceding October 1. The taxes are due the following October 1 and delinquent after December 31. In accordance with the nonexchange transactions provision of GASB Statement No. 33, a receivable for taxes is recorded when an enforceable legal claim has arisen or when resources are received, whichever is first.

CITY OF SELMA, ALABAMA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, and Equity (Continued)

Inventories and Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital Assets

Capital assets, purchased or constructed, are reported at cost or estimated historical cost. Donated capital assets are recorded at estimated fair value at the date of donation.

Capital assets are defined by the City as assets with an initial, individual cost of more than \$4,000. The City did not report infrastructure acquired prior to October 1, 2001.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Buildings	70 years
Improvements	15-20 years
Equipment	5-20 years
Vehicles	7-20 years
Infrastructure	10-50 years

Compensated Absences

The City allows employees to accumulate vacation and sick leave up to certain limits for use in subsequent periods.

Lease Obligations

Capital lease obligations are stated at the original fair market value of leased assets capitalized, less payments since the inception of the lease discounted at the implicit rate of interest in the lease. Also, in the year an asset is acquired by capital lease, the expenditure for the asset and the offsetting amount of the financing source are reflected in the fund financial statements in the statement of revenues, expenditures, and changes in fund balances. Capital lease obligations of proprietary funds and governmental activities in the government-wide financial statements and the cost of assets so acquired are reflected in the accounts of those funds and statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities, and Equity (Continued)

Fund Equity

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable – This classification includes amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – This classification includes amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – This classification includes amounts that can be used only for specific purposes determined by a formal action of the City Council. The City Council is the highest level of decision making authority for the City. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the City Council.

Assigned – This classification includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the City's adopted policy, only the City Council may assign amounts for specific purposes.

Unassigned – This classification includes all other spendable amounts.

The City considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The City considers committed, then assigned amounts to have been spent when an expenditure is incurred for purposes for which the amounts of unrestricted fund balance is available.

CITY OF SELMA, ALABAMA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

An annual budget is adopted for the City's general fund. Under state law, the Mayor submits the annual budget to the City Council for consideration and approval no later than October 1. Such budget is based on expected expenditures by program and estimated resources by source. The budget is prepared using the modified accrual basis of accounting. Revisions to the budget must be approved by the City Council. All annual appropriations lapse at fiscal year-end.

Deficit Fund Balance

Funds with deficit fund balance are as follows:

	<u>Deficit Amount</u>
Major Governmental Funds:	
Other Funds Account	\$ 91,990
Nonmajor Governmental Funds:	
Good Samaritan	26,441
1996 Refunding Warrants	105,321

The City's intent is to appropriate funds from the General Fund in order to reduce the above deficits.

3. CASH AND CASH EQUIVALENTS

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk.

As of September 30, 2012, none of the City's bank balance of \$10,395,723 was exposed to custodial credit risk. All of the City's bank balances are insured by the Federal Deposit Insurance Corporation (FDIC) and the Security for Alabama Funds Enhancement (SAFE) Program. The SAFE Program is a multiple financial collateral pool administered by the State Treasurer according to State of Alabama statute.

CITY OF SELMA, ALABAMA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012

4. RECEIVABLES

Receivables as of September 30, 2012 for the government's individual major and nonmajor funds, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General Fund</u>	<u>Other Funds Account</u>	<u>Bond Fund</u>	<u>Nonmajor Governmental Funds</u>	<u>Inert Landfill</u>	<u>Total</u>
Taxes	\$ 1,006,863	\$ -	\$ -	\$ 51,509	\$ -	\$ 1,058,372
Accounts	1,868,505	25	-	1,641	76,777	1,946,948

Less allowance for uncollectible	1,708,680	-	-	-	9,977	1,718,657
Net total receivables	<u>\$ 1,281,684</u>	<u>\$ 181,158</u>	<u>\$ 358</u>	<u>\$ 144,281</u>	<u>\$ 66,800</u>	<u>\$ 1,674,281</u>

5. NOTE RECEIVABLE

During 2005, the City issued warrants in the amount of \$1,260,000 for the benefit of the Selma City Schools. Principal payments are due annually with semiannual interest payments at 3.3% to 4.4%. The School System is indebted to the City as follows for the debt service of these warrants.

Year ending September 30:	<u>Governmental Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2013	\$ 80,000	\$ 34,075
2014	80,000	30,796
2015	85,000	27,413
2016	90,000	23,825
2017	95,000	19,938
2018 – 2021	410,000	37,058
Total	<u>\$ 840,000</u>	<u>\$ 173,105</u>

CITY OF SELMA, ALABAMA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012

8. LONG-TERM DEBT (Continued)

Operating Leases

The City is obligated under operating lease agreements for copiers through November 30, 2015. The future minimum lease payments under these lease agreements are:

Year ending September 30:	
2013	\$ 57,228
2014	57,228
2015	<u>9,538</u>
Present value of minimum lease payments	<u>\$ 123,994</u>

Total rental expense for the above mentioned lease is \$47,076 for the year ended September 30, 2012.

In addition, the City has agreed to lease space in the county jail on a year-to-year basis at a rate of \$200,000 per year ending September 30, 2019.

Other Long-Term Debt

Compensated absences, benefits and other governmental activity obligations are generally liquidated by the General Fund.

9. EMPLOYEES' RETIREMENT PLAN

Employee Pension Plan

The City has a defined contribution benefit pension plan covering substantially all employees. The pension plan is funded as required by applicable statutes, ordinances, or as a percentage of eligible salaries and/or based upon actuarial valuations. The plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments to plan members and beneficiaries. The plan is an agent multiple-employer retirement plan. The agent for the plan is the Employees' Retirement System of Alabama (ERS).

Plan Description

The ERS is an agent multiple-employer public employee retirement system. The ERS was established on October 1, 1945, under the provisions of Act 515, Acts of Alabama 1945, for the purpose of providing retirement allowances and other specified benefits for state employees, state police, and, on an elective basis, all cities, counties, towns, and quasi-public organizations. The responsibility for the general administration and operations of the ERS is vested in the ERS Board of Control. Authority to amend the plan rests with the Legislature of Alabama.

9. EMPLOYEES' RETIREMENT PLAN (Continued)

Plan Description (Continued)

Substantially all employees are members of the ERS. Membership is mandatory for covered or eligible employees of the City of Selma. The ERS provides retirement benefits as well as death and disability benefits as established by state law. The retirement benefits are established by Title 36, Chapter 27 of Alabama State Law and must be amended by statute. Benefits vest after 10 years of creditable service.

Vested employees may retire with full benefits at age 60 or after 25 years of service, regardless of age (30 years of service for those units that have not elected 25 years retirement). Retirement benefits are calculated by two methods with the retiree receiving payment under the method that yields the highest monthly benefit. The two methods are (1) Minimum Guaranteed, and (2) Formula, of which the Formula method usually produces the highest monthly benefit. Under the formula method, upon service retirement, a member receives a retirement allowance equal to 2.0125% of the member's average final compensation (best three of last ten years) multiplied by the number of years of creditable service. At retirement, a member receives one additional year of creditable service in determining the retirement allowance for each five years of service as a full-time certified firefighter, police officer, or correctional officer. Disability benefits are calculated in the same manner as regular retirement benefits. A pre-retirement death benefit in the amount of the annual salary for the fiscal year preceding death is provided to plan members.

The Retirement System of Alabama issues a publicly available financial report that includes financial statements and required supplementary information for the ERS. That report may be obtained by writing to The Retirement System of Alabama, 135 South Union Street, Montgomery, Alabama 36130-2150.

Contributions Required and Contributions Made

The actuary has computed, as of the date of the latest actuarial valuation (September 30, 2011), the estimated present value of benefits payable to retired members, beneficiaries, and active members. The actuarial valuation is prepared using the entry age method. The present value of all expected benefits payable to the present group of members and beneficiaries is calculated by adding the present value of the expected benefits payable to the active members to the present value of the expected future payments to retired members and beneficiaries.

As required by statute, the ERS funding policy provides for employer contributions at actuarially determined rates, expressed as a percent of annual covered payroll, in amounts sufficient to accumulate assets to pay benefits when due. The employer contributions required to support the benefits of each system are determined following a level funding approach and consist of a normal contribution, an accrued liability contribution, a pre-retirement death benefit contribution, and a portion to finance administrative costs.

The required contribution rate is 5% for regular members and 6% for certified law enforcement, correctional officers, and firefighters. For the fiscal year ended September 30, 2011, the required employer contribution rate was 4.95% of annual covered compensation.

CITY OF SELMA, ALABAMA
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2012

9. EMPLOYEES' RETIREMENT PLAN (Continued)

Annual Pension Cost

1. Current-Year Contribution Information

For the year ended September 30, 2012, the City's annual pension cost contributed by employees was \$401,236 and the City contributed \$214,180, or a total of \$615,416. Contributions were made in accordance with actuarially determined contribution requirements through an actuarial valuation performed at September 30, 2011.

2. Actuarial Assumptions and Methods

Valuation date	September 30, 2011
Actuarial cost method	Entry Age
Asset valuation method	5-Year Smoothed Market
Amortization method	Level Percent Open
Remaining amortization period	30 years
Period closed/open	Open
Actuarial assumptions:	
Investment rate of return	8%*
Projected salary increases	3.75% - 7.75%*
Cost of living increases	None

*Includes inflation at 4.5%.

In accordance with GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, a pension liability of \$0 was calculated at the transition date. Trend information for the most current valuation year and the two preceding years is as follows:

<u>Fiscal Year Ending</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation (NPO)</u>
9/30/2009	\$ 725,905	100.0%	\$ -
9/30/2010	710,013	100.0	-
9/30/2011	770,058	100.0	-

Total fund balances	<u>\$ 3,499,500</u>	<u>\$ (91,990)</u>	<u>\$ 3,707,743</u>	<u>\$ 2,058,250</u>	<u>\$ 2,085,406</u>	<u>\$ 11,258,909</u>

11. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The City's risk management program provides limited secondary market reinsurance to protect the City from any single loss in excess of a specific amount. Coverage consists of \$2,000,000 and \$500,000 in general and workers compensation insurance, respectively.

12. CONTINGENT LIABILITIES

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits whose outcome is not presently determinable. In the opinion of the City's counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

13. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The City of Selma administers a defined benefit healthcare plan ("the Employees' Medical Insurance Plan") for employees of the City. The plan provides lifetime healthcare insurance for eligible retirees through the City's group health insurance plan, which covers both active and retired members. The Employees' Medical Insurance Plan does not issue a publicly available financial report. At September 30, 2012, the plan had approximately 289 active participants and 70 retired members and beneficiaries.

Funding Policy

The employer contributes \$312 for active participants and requires monthly contributions of \$75 from active participants who maintain single coverage and \$367 to \$665 from active participants who maintain family coverage. Retirees' are required to contribute certain amounts based on level of coverage and date of retirement as follows:

	<u>Monthly Contribution</u>
Retiree under 65	\$ 193.47
Retiree over 65	62.50

Total member contributions were \$429,321 for active participants and \$80,784 for retirees and beneficiaries.

CITY OF SELMA, ALABAMA
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2012

13. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Annual OPEB Cost and Net OPEB Obligation

The City's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC). The City has elected to calculate the ARC and related information using the unit credit actuarial cost method. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation to the Employees' Medical Insurance Plan:

Annual required contribution	\$ 538,701
Interest on net OPEB obligation	<u>26,701</u>
Annual OPEB cost	565,402
Contributions made	<u>(216,328)</u>
Increase in net OPEB obligation	349,074
Net OPEB obligation – beginning of year	<u>667,521</u>
Net OPEB obligation – end of year	<u>\$ 1,016,595</u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2012 and the previous two years is as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
9/30/2010	\$ 280,226	69%	\$ 319,410
9/30/2011	550,477	37	667,521
9/30/2012	565,402	38	1,016,595

Funded Status and Funding Progress

As of October 1, 2010, the actuarial accrued liability for benefits was \$5,172,791 all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$8,653,127, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 59.8%.

13. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Funded Status and Funding Progress (Continued)

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following significant assumptions were made:

Retirement age for active employees – Based on the historical average retirement age for the covered group, active plan members were assumed to retire at the earlier of 25 years of service at any age or 10 years of consecutive service and the attainment of age 60.

Marital status – The City of Selma provides medical insurance coverage for retirees but not for dependents.

Mortality – The 1994 Group Annuity Reserving (94GAR) table, projected to 2002, based on a fixed blend of 50% of the unloaded male mortality rates and 50% of the unloaded female mortality rates, is used.

Turnover – An age-related turnover scale based on actual experience has been used. The rates, when applied to the active employee census, produce an annual turnover of approximately 15%.

Healthcare cost trend rate – The expected rate of increase in medical cost is based on projections performed by the Office of the Actuary at the Centers for Medicare & Medicaid Services as published in National Health Care Expenditures Projections: 2003 to 2013, Table 3: National Health Expenditures, Aggregate and per Capita Amounts, Percent Distribution and Average Annual Percent Change by Source of Funds: Selected Calendar Years 1990-2013, released in January, 2004 by the Health Care Financing Administration (www.cms.hhs.gov). "State and Local" rates for 2008 through 2013 from this report were used, with rates beyond 2013 graduated down to an ultimate annual rate of 5% for 2016 and later.

CITY OF SELMA, ALABAMA
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2012

13. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Methods and Assumptions (Continued)

Health insurance premiums – 2010 health insurance premiums for retirees were used as the basis for calculation of the present value of total benefits to be paid.

Discount rate – 4% per annum, compounded annually, if unfunded.

The Unit Cost Actuarial Cost Method was utilized in computing actuarial liabilities and costs. The unfunded actuarial accrued liability is being amortized over the maximum permissible period under GASB, 45 of 30 years. The remaining amortization period at September 30, 2010, was 28 years.

14. NET PENSION ASSET

On July 26, 2011, the City issued the 2011 Taxable Pension Obligation Warrants in the amount of \$11,165,000. The proceeds of the warrants were used to prepay the City's unfunded ERS accrued actuarial liability in the amount of \$10,301,068. This prepayment has been recorded on the statement of net assets as a net pension asset. The effect of this prepayment will be reflected in future actuarial reports as that information becomes available from ERS. The net pension asset will be amortized as the debt is repaid. For the year ended September 30, 2012, was amortized and recorded as pension expenses.

As of September 30, 2012, changes to the net pension asset were as follows:

	<u>Beginning Balance</u>	<u>Increase</u>	<u>Decrease</u>	<u>Ending Balance</u>
Governmental Activities	\$ 9,945,859	\$ -	\$ 355,209	\$ 9,590,650

15. EFFECT OF NEW PRONOUNCEMENTS

Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements of the City.

GASB Statement No. 57, *OPEB Measurement by Agent Employers and Agent Multi-Employer Plans*. This statement is intended to improve consistency in the measurement and financial reporting of other post-employment benefits (OPEB) such as retiree health insurance. The requirements of this statement are effective for financial statements for periods beginning after June 15, 2012.

GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements* issued in November 2010. This Statement is effective for fiscal periods beginning after December 15, 2011.

15. EFFECT OF NEW PRONOUNCEMENTS (Continued)

GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus*. The requirements of Statements No. 14, *The Financial Reporting Entity*, and the related financial reporting requirements of Statement No. 34, *Basic Financial Statements - Management's Discussion and Analysis - for State and Local Governments*, are amended to better meet user needs and to address reporting entity issues relating to component units. This Statement modifies current requirements for assessing potential component units in determining what should be included in the financial reporting entity and financial reporting entity display and disclosure requirements. Application is effective for financial statements whose fiscal year begins after June 15, 2012.

GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The objective of this Statement is to incorporate into GASB's authoritative literature certain accounting and financial reporting guidance that is included in certain pronouncements issued on or before November 30, 1989. Requirements of this Statement are effective for financial statements whose fiscal year begins after December 15, 2011.

GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This statement is effective for financial statements for periods beginning after December 15, 2011. This statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined those elements as a consumption of net position by the government that is applicable to a future reporting period, and an acquisition of net position by the government. This statement amends the net asset reporting requirements in Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognized as outflows of resources or inflows of resources, certain items previously reported as assets and liabilities. Requirements of this Statement are effective for financial statements whose fiscal year begins after December 15, 2012.

GASB Statement No. 66, *Technical Corrections - 2012*. The objective of this Statement is to improve accounting and financial reporting for government reporting by resolving conflicting guidance that resulted from the issuance of Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and Statement 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. Requirements of this Statement are effective for financial statements whose fiscal year begins after December 15, 2012.

CITY OF SELMA, ALABAMA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012

15. EFFECT OF NEW PRONOUNCEMENTS (Continued)

Statement No. 67, *Financial Reporting of Pension Plans*. The objective of this Statement is to improve financial reporting of government pension plans. Requirements of this Statement are effective for financial statements whose fiscal year begins after June 15, 2013.

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The objective of this Statement is to improve accounting and financial reporting of government pensions. Also, it improves information provided by government employers about financial support for pensions that is provided by other entities. Requirements of this Statement are effective for financial statements whose fiscal year begins after June 15, 2014.

GASB Statement No. 69, *Government Combinations and Disposals of Government Operations*. This Statement will improve accounting for mergers and acquisitions among state and local governments by providing guidance specific to the situations and circumstances encountered within the governmental environment. Requirements of this Statement are effective for financial statements whose fiscal year begins after December 15, 2013.

COMPUTATION OF LEGAL DEBT MARGIN
SEPTEMBER 30, 2012

Assessed value		<u>\$ 125,097,320</u>
Legal debt margin		
Debt limitation - 20 percent of assessed value		\$ 25,019,464
Debt applicable to limitation:		
Long-term bonded debt including capital leases	\$ 25,958,113	
Less: Debt attributable for school purposes	(2,324,246)	
Less: Amount available for payment of general obligation debt	<u>(3,700,633)</u>	
Total debt applicable to limitation		<u>19,933,234</u>
Legal debt margin		<u>\$ 5,086,230</u>

Sources: Assessed value data provided by the Dallas County Tax Assessor.

See accompanying notes.

CITY OF SELMA, ALABAMA
COMPUTATION OF DIRECT AND OVERLAPPING BONDED DEBT
SEPTEMBER 30, 2012

<u>Jurisdiction</u>	<u>Net General Obligation Bonded Debt Outstanding</u>	<u>Percentage Applicable to Government (a)</u>	<u>Amount Applicable to Government</u>
Direct			
City of Selma:			
General obligations including capital leases	\$ 25,958,113 (a)	100.00%	\$ 25,958,113
Overlapping			
Dallas County:			
General obligations including capital leases	<u>9,839,836</u>	33.10%	<u>3,256,986</u>
Total	<u><u>\$ 35,797,949</u></u>		<u><u>\$ 29,215,099</u></u>

Sources: Assessed value data used to estimate applicable percentages provided by the Dallas County Tax Assessor. Net General Obligation Bonded Debt outstanding data provided by the Dallas County Tax Assessor.

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Selma. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(a) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the City's taxable assessed value that is within the County's boundaries and dividing it by the County's total taxable assessed value.

See accompanying notes.
